

INTERNATIONAL SUPPLY CHAIN MANAGEMENT

Integrated solutions for international supply chain management

Challenges

As an international logistics planner, you've got a lot on your plate. Getting the right product in the right quantity to the right place at the right time is no easy feat. To "do it right" you need comprehensive knowledge of governmental regulations in every port you touch – inbound and outbound. And to manage and integrate sales orders, shipments, routes, suppliers, and mountains of logistics information you also need:

- Effective systems to simplify your life and lower your costs
- Streamlined processes to make quick work of complex tasks
- Expert staff with the skill to prevent problems before they're problems, and the insight to manage the unforeseen

Flawless supply chain execution is a tall order. Harte-Hanks can help.

Solution

Harte-Hanks offers global strength to support every type of international freight forwarding need. Our end-to-end solutions combine expert service, sophisticated technology and powerful partnerships to help you drive costs out of your global supply chain without sacrificing quality, speed or visibility.

Expert service means our people understand the complexity of international logistics. We work closely with you to understand your needs, and ensure your freight arrives when, where and how you need it, at the best price available.

Sophisticated technology from Harte-Hanks provides real-time views of your shipments at every point in your supply chain. And as regulatory demands change, our experts make sure your documentation meets or exceeds governmental requirements so you don't lose valuable time clearing customs.

Powerful partnerships with firms like FreightCo Logistics, the leader in international freight forwarding services, ensure you have access to a global network of carriers and agents with unsurpassed skill and experience.
