

TRANSPORTATION MANAGEMENT SERVICES

Drive Your Savings with Cutting-Edge Technology

Improve Your Bottom Line through Single-Source, Web-Based Transportation Management

You need to move material fast. To multiple locations. On time, every time, within budget and without endless tracking and worrying. The right partner can make it easier, and deliver higher return on your supply chain investments.

Capitalize on more than 25 years of experience with the Harte-Hanks Logistics time- and money-saving Order Entry System (OES) – a comprehensive North American network that is second to none, plus dedicated staff for personalized account management.

Harte-Hanks makes more than 3.5 million on-time deliveries a year. We maintain relationships with more than 9,000 carriers – on the road, in the air, by rail, and by sea. Partner with Harte-Hanks to benefit from:

- Time- and money-saving technology – Order Entry System (OES) is a simple, secure Web-interface for real-time, dependable and accurate information on your shipments with delivery notification and reporting.
- Streamlined transport – The Harte-Hanks Information Transportation System (HITS) automates critical functions such as routing, dispatch, tracking, and post-delivery analysis.
- End-to-end supply chain management – Our proprietary Web-enabled supply chain solution ensures on-time deliveries with precise inventory visibility and up-to-the-minute tracking capabilities. That means avoiding costly disasters, reaping bottom-line benefits, and reducing inventory headaches.
- Logistics Opportunity Analysis – See how much you can save on your logistics costs with our complimentary assessment of your supply chain operations. This exclusive analysis quantifies time and cost savings you can achieve with better processes and technology.

INSIGHT INTO YOUR BUSINESS

Our easy-to-use order entry system gives you the edge you need.

BENEFITS AT A GLANCE
